

Boards of Trade Send
Deputation to Inter-
view Govt. HeadsEarly Opening of Snow-Blocked
Highway to Crows Nest Will
Be Urged on P. W. Dept.

Following requests from Fernie Board of Trade for the co operation of Boards of Trade from Coleman to Lethbridge in opening the Red Trail from Coleman to Crows Nest, telegrams were sent by Blairmore and Coleman Boards of Trade to Hon. O. L. McPherson, minister of public works, requesting that the snow plow now in use between the Pass towns in Alberta be allowed to continue its work to the Divide.

The department replied that the equipment was not sufficiently powerful to buck the heavy drifts around Crows Nest Lake, and no action is contemplated for the immediate future.

Following this L. L. Morgan, president of Blairmore Board of Trade, arranged with A. Baslin, president of Lethbridge board, that a deputation from Coleman and Blairmore proceed to Lethbridge to day to interview Premier Brownlee and Hon. O. L. McPherson, to urge action as early a date as possible, so that travel on this high way into British Columbia may be resumed. Being the only inter provincial highway used for commercial purposes during the winter, the Pass Boards of Trade and town councils point out the increasing importance and necessity of keeping the highway open. The Crows Nest Pass will also be the air mail route from the east to Vancouver and Pacific coast cities.

Geo. Pattinson, deputy mayor, and L. L. Morgan, president of Blairmore Board of Trade, went to Lethbridge this morning, and will attend the banquet this evening in the Marquis hotel, given by Lethbridge board in honor of the visit of the premier and Mr. McPherson.

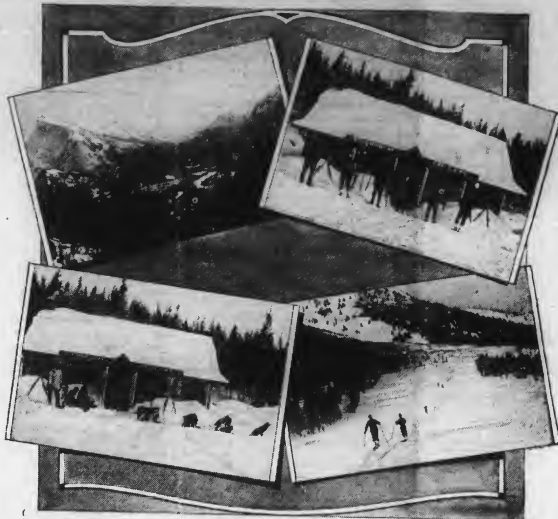

In Memoriam

In loving memory of our dear little darling James Gate, dearly beloved son of James and Ivy As bridges, who died at Corbin, B. C., January 22nd, 1929, age 6 months.

There's a dear little face that is missing,
A sweet little voice that is still'd,
A place in our home that is vacant,
Which never can be filled.

Fondly remembered by all at
Mercoal and Coleman.

All Set for Banff Winter Carnival

A Paradise for skiers is a fair description of the country around Banff at this time of year and the dates for the Winter Carnival at that resort have been set with a view to getting the best possible weather results. February 1-8 all eyes will be turned to this beautiful mountain resort. Wonderful scenery and perfect runs are to be found in every direction and there is a special attraction for skiers in the

Sentinel Lodge K. of P.
Installation of Officers

The installation of officers of Sentinel Lodge, Knights of Pythias, was held in Castle Hall, on Jan. 8, when the following were installed:

D. Gillespie	C. C.
E. Milley	V. C.
E. Hill	Private
John Denham	M. of W.
J. C. Griffiths	K. R. S.
W. Nelson	M. of F.
Hugh Dunlop	M. of E.
H. Eyesackers	M. at Arms
E. C. Clarke	I. G.
J. McArtney	O. G.

The installation was conducted by A. C. McArthur, Supreme Representative, of Calgary. After the installation an enjoyable supper was served.

Mr. Kwassie, formerly of Coleman, now living at Port Crawford, B. C., is visiting here this week. He states that his son Jack is now playing on the San Francisco hockey team (the Tigers) and a news paper report states he is considered the best prospect in the circuit, and is one of the four outstanding athletes in California Ice Hockey League.

Gillis-Dunlop Wedding

The marriage took place on Saturday in Vancouver of Inez Kingley Dunlop, daughter of Mrs. C. F. Dunlop and the late Lieut. C. F. Dunlop, of Coleman, to Dr. F. Austin Gillis, of Merritt, B. C.

The bride is well known to many people in Coleman, as she went through public and high schools here, and then spent three years as a nurse in training in Vancouver general hospital, from which she was graduated. For a time she was assistant matron at Merritt hospital, and from there went to San Francisco, where she was engaged in professional duties till recently. The many friends of the bride will join in good wishes on the occasion of the happy event. Dr. and Mrs. Gillis will reside in Merritt, and at present are enjoying a trip to western coast cities.

The Lure of the West

The following from one who has lived in the west, and is now living in Ottawa, shows that Alberta holds a strong place in the hearts of those who seek advancement in wider fields of action:

"I hope things are going nicely in the Province of Alberta. I like Ottawa, but quite often when I waken up in the morning, especially in the summer, I wish I could catch something of the breeze which used to blow down from the hills when I was living in Calgary. That old province will soon be all oil fields and if I go back some time I shall see derricks instead of stacks of grain."

Augmented Orchestra

Alternatt Orchestra will be strongly augmented for the Moose dance at Blairmore on Saturday night. Prompted by the huge success of the gir-gham dress and combination overall dance at Coleman on Monday night last, such will be the feature of the dance on Saturday night. For particulars phone 153.

An example of economy was that of the family which decided to repair the rented house they lived in, and in order to be able to take the wall-paper when they moved, just tacked it to the wall.

Joint Installation of
Rebekahs and Oddfellows

A joint installation of Coleman Lodge No. 36, I. O. O. F. and Victoria Lodge No. 7, took place on Saturday evening, Jan. 17. The following officers were installed in their respective offices:

P. N. G.	Mrs. N. E. Higginbotham and J. Van Mearion.
N. G.	Miss Evelyn Ford and Harry Vincent
V. G.	Mrs. R. Vincent and John D'Andrea.
R. S.	Mrs. H. Boulton and A. L. Watkins.
I. S.	Mrs. R. Evans and J. Rogers.
Treas.	Mrs. E. Cox and Granville Greenhalgh.
Warden.	Mrs. H. Olsen and Russel Vincent.
Cond.	Mrs. Shields.
I. G.	Mrs. I. Neilson and I. Neilson.
O. G.	Mrs. H. Vincent.
Chaplain.	Mrs. J. Yates and J. H. Boulton.
R. S. N. G.	Mrs. G. Ford and R. Evans.
L. S. N. G.	Mrs. T. Bowen and W. Hoggan.
R. S. V. G.	Mrs. W. Nelson and H. Olsen.
L. S. V. G.	Mrs. J. L. Lonsbury and McKean Hunter.

After installation a very tasty banquet was served by members of the Rebekah lodge. During this period, the retiring district deputy grand sister, R. Evans, was presented with a silver cake tray. The balance of the evening was devoted to dancing.

The concert in the Polish hall on Sunday night was attended by a large number of people and thoroughly enjoyed.

TOWN OF COLEMAN

DOG LICENSES

All licenses to keep dogs in the town must be paid by March 31, 1930. Owners of dogs not having taken out a license by that date will be prosecuted under the bylaw governing same. By Order of the Council.

Hockey Notes

Hillcrest played Coleman here on Monday night, and were defeated by a score of 9-0. It has been an unbroken series of defeats for the Hillcrest boys in the Crow league this season, but they stuck smely to the schedule despite the handicap under which they played.

According to W. Chappell, head of the league, Coleman and Hillcrest are to play off in the intermediate championship series, while Blairmore, Bellevue and Lethbridge will play off for the senior championship series.

This will help to maintain continued interest in hockey for the balance of the season, and a meeting was announced to be held in Blairmore yesterday afternoon for the purpose of drawing up a further schedule for the Crow league for the balance of the season.

Re Canadian Legion

In connection with the re organization of the local branch of the Canadian Legion, Capt. R. F. Barnes received word from Capt. Geo. Hudson, organizer, that he will visit Coleman at the first opportunity and will advise date as early as possible so that all members may know in good time. A general meeting will then be called to which all ex service men will be invited.

Mrs. Eliza Thomas informed The Journal that on Saturday last she saw a robin sitting on the fence in the vicinity of her home near the rock bluff in West Coleman. This is unusual for such a cold season. Moreover, she is sure it was a robin, for she saw its red breast.

Town Council Held
Meeting on Monday

Jas. Ford Appointed Returning Officer for Municipal Election in February.

The town council met on Tuesday evening. Deputy Mayor presiding, when routine business was transacted. Jas. Ford, town clerk, was appointed returning officer for the municipal elections to be held in February, for the election of mayor and councillors to fill the vacancies caused by the expired terms of present members. There will also be an election for school trustees.

The annual financial statement of the town for the past year is published in this issue by authority of the council, and will prove of interest to all ratepayers.

Nominations for councillors and school trustees will take place on the first Monday in February, with elections a week later.

The annual meeting of ratepayers of Coleman school district is advertised to take place in the town hall on Jan. 31 at 8 p. m., which every ratepayer has the privilege of attending.

Fernie's civic elections were held on Thursday last, when J. L. Gates was elected as mayor by a majority of three votes over J. S. Irvine. Keen interest was excited in the election because of opposition to Mr. Gates' election owing to his being owner of a hotel in which there is a beer parlor.

The Apron and Gingham dance in the Italian hall on Monday night proved a grand success.

'Fresh from the gardens'

Immigration and Unemployment

At the present time much is being said and written on the twin subjects of immigration and unemployment. Hardly an issue of a daily paper appears that does not contain some reference to the problems involved, hundreds of letters to editors are penned expressing one view or another, conferences and conventions pass resolutions, and Governments, Federal, Provincial and Municipal are struggling with the difficulties confronting them. There is in all quarters a tendency manifested to shelve the responsibility on to the other fellow, to, in the descriptive language of the day, "pass the buck," and "let George do it."

With recent weeks headlines in the press have informed a reading public that "3,000,000 are unemployed in the United States," that in Germany "2,000,000 are out of work," that the number of unemployed in Great Britain "remains between 1,500,000 and 2,000,000," while, coming nearer home, that "the unemployed situation is acute in all large Canadian centres of population."

What is the cause? What is the solution? The United States has been experiencing a period of unexampled industrial growth and activity. In 1929 Canada enjoyed the most prosperous year in its history, with all records for manufacturing, building construction, and development of natural resources reaching new high marks. Despite depression in certain basic industries, Great Britain reports more people at work than before the war, while Germany, we are told, is "coming back," and regaining much of her former strength in the export markets of the world.

In Canada the opinion prevails in many quarters that our unemployment problem is largely due to an influx of immigrants, but such a cause cannot be advanced in the case of Great Britain, Germany, or even in the United States, with its rigidly restricted immigration quota. Yet unemployment seems to be almost universal; in fact there is less in proportion to population in Canada than in other countries. So, the cause lies deeper than in immigration, although, of course, it undoubtedly has some effect.

In the United States it is not partly accounted for by the fact that for some years past mass production has been studied on a scale hitherto unknown, and the marketing of this enormous production has only been possible through the sale of every conceivable kind of article on the installment plan, until the average income of the buying public was tied up in advance for long periods. Possibly the saturation point has been reached, and people being unable to buy more, even on a credit basis, production had to slow up.

It is not also true that the enormous sums now invested in automobiles, radios, and other expensive but, in the case of the average citizen, unproductive devices, being thus withdrawn from productive enterprises is having its effect on other industries?

Again, through the inventive genius of this age, labor-saving machinery and appliances of all kinds have led to the result of enabling one man or woman to do the work of two, three or more, with a consequent lessening of the ratio of employment to volume of output. Wages to those employed are higher, but the number of workers actually required in many industries is less, although their output is greater. Here in Western Canada we have an example of this in the big drop in the number of farm helpers required through the introduction of the combined harvester-thresher and the increasing use of motor trucks over horse drawn vehicles. As one result, too, the tendency is again in the direction of larger farms, whereas not many years ago the belt was fairly general that the day of smaller farm holdings providing for more families on the land was approaching.

What governments, economists, manufacturers, labor unions, and our whole citizenship must realize is that a present paradox of unemployment in an era of general expansion and growth is the result of changing world conditions. All countries are affected. Everything is in a state of flux. And because all countries are affected, and also because far away fields always look green, people everywhere are looking elsewhere to better their condition. The inevitable result is that all countries will more and more restrict immigration as a measure of their own national salvation.

What will happen then? There is only one answer: People will have to adjust themselves to changed, and still rapidly changing conditions. They will have to work out their salvation at home. The problem is a huge and difficult one. Nobody yet has the solution. All must think and study, and that is the sole reason for this article—to encourage real study of the problem, instead of the present prevailing tendency to lay the blame on somebody else.

Says Insanity Increasing

Eminent Psychiatrist Makes Somewhat Startling Assertion

After copious consideration and profound contemplation an eminent psychiatrist asserts that it is only a matter of time when we will all be in the asylum. He finds that insanity is increasing rapidly, that a few centuries hence practically the whole world will be daffy in the bean. In a universe of nuts a squirrel may be king.

The fact that the world is going crazy is no surprise to some folks. They think that it is that way already. But on the other hand there are some of good repute who are still able to figure out that this is not such a rotten world after all, and that there is enough skill and intelligence available to keep the machinery running for an indefinite period.—Los Angeles Times.

DO YOU

SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The safe and harmless way. First correct the cause, sweeten the blood and acid stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Drugstore 25c per box.

Agricultural Conference

Two Important Conferences To Be Held In Winnipeg Shortly

Two conferences of importance to the agricultural industry will take place in Winnipeg in the next two months. It was announced by Dr. J. H. Grisdale, deputy minister of agriculture.

A conference of all government departments and agencies carrying on research work will be held in Winnipeg in March. Dr. Grisdale will attend as well as Dr. H. M. Tory, head of the national research council.

A second conference in regard to barley production also will be held. Dr. Grisdale will make a statement in connection with the barley conference in a few days.

Unemployment Relief

Regina City Council Projecting Civic Works During Winter Season

At an actual cost of \$20,000, an other sewer programme is now being considered by Regina City officials as an unemployment relief measure, and will supplant the programme already undertaken and nearly completed.

To date this winter, eight and a half blocks of sewers have been dug by day labor in various sections of the city as unemployed relief. As well as a plank walk programme of 18 blocks has recently been started for unemployment relief at a cost of \$5,000.

If hard luck drives a man to drink, prosperity would have ruined him.

Falling Hair—Just try Minard's.

Good Word For Women Drivers

New York Commissioner Says More Men Break Traffic Laws

Commissioner of Motor Vehicles, Charles A. Harnett, stated that women drivers in New York State represent 16 per cent. of the total number. In the last four months 27,130 men violated traffic laws—as against 653 women.

On an average day 250 men are arrested and only four women.

Over the four-month period 3,918 men were up for speeding, as opposed to sixty-six women.

Difficulties over car lights have brought 4,635 men to court, while only sixty-nine women were charged with similar offenses.

Smoking motors were charged against seventeen men, but against not one woman.

One woman was very legitimately booked for intoxication. To offset that showing there were 132 men accused of driving while drunk.

Thirty women failed to keep to the right, 4,075 men did likewise.

Seven women mistook a one-way street. There were 481 men who made the same error.

Thirty-two women did not have their licenses at a crucial moment. Similar lapses of memory affected 1,226 males.

INFLUENZA'S VICTIMS

Left Weak, Miserable and a Prey To Disease In Many Forms

One of the most treacherous diseases afflicting the people of Canada during the winter months is influenza. It almost invariably ends with a complication of troubles. Its victims suffer with alternate fevers and chills, headaches and backaches. It leaves them an easy prey to bronchitis and pneumonia. Indeed, the deadly effects of influenza may leave the victim a chronic invalid. You can avoid influenza entirely by keeping the blood rich and by the use of Dr. Williams' Pink Pills. If you have not done this and the disease attacks you, you can banish its deadly after effects through the use of this great blood-building nerve-restoring tonic.

Here is proof of the power of Dr. Williams' Pink Pills over this trouble. Mr. F. H. McMullen, Belleville, Ont., says: "Some years ago, following a severe attack of influenza, I was left in such a weak condition that my friends thought I would not get better. I developed nervous indigestion, and my blood got thin and watery. In this weakened condition I began the use of Dr. Williams' Pink Pills, and these did what other medicine had failed to do—brought me back to health and strength. I can honestly say I think them the best blood-builder and nerve tonic I ever used, and I shall always praise them." "You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Tribute To Canadian Industry

Canada Has "Cleanest" Tea Warehouse In The World

On a tour of the Dominion, under the auspices of the British Unit of Certified Grocers, six post graduates visited the Montreal plant of the Salada Tea Company, of Canada, Limited. The following report made by the secretary, Mr. C. L. T. Beeching, appeared in the *Tea & Coffee Trade Journal*, of New York.

"During the tour they (the graduates), inspected some of the wholesale and retail tea concerns in the Dominion, and they considered that the Montreal plant of the Salada Tea Company was the neatest and cleanest tea blending warehouse and packing centre in the world."

Canada has reason to be proud of industries that can make such an impression on visitors of this calibre.

At one entertainment given by George Washington, the candles to light the banquet hall cost ten dollars an hour.

"Tungsten, in Swedish, means 'heavy stone.'"

Heart and Nerves

Caused Her To Have

Cold Hands and Feet

Mrs. Joseph Price, Red Pine, N.B., writes: "Several years ago I was troubled with my heart and nerves and was so bad, that my hands and feet would become numb and cold."

"I happened to see

MILBURN'S HEART NERVE PILLS

advertised and started taking them at once. I continued for some little time, and since then I have had no return of my trouble."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Will Use Tyndall Stone

Alberta Government To Use Manitoba Product In Construction Of New Administration Building

The Alberta Government has decided to use Manitoba stone in the construction of its new \$700,000 administration building at Edmonton. A decision as between stone from the Tyndall quarries and from Indiana has been made in favor of the former, and Premier Brownlee telegraphed Mr. Brown to that effect. The bill for stone alone will run into a quarter of a million dollars.

In his wire to the Manitoba premier, Mr. Brownlee said: "May I also express the hope that your government will continue to assist us in our efforts to extend our coal market in your province. We would appreciate further investigation into the possibilities of using larger percentages of our coal in government institutions."

The decision of the Alberta Government to use Tyndall stone in preference to imported stone for the new executive building at Edmonton was received with much satisfaction in Manitoba Government and business circles.

Protests against a sister province letting a contract for the stone to a firm in the United States had been general. Premier John Blacken, in seeking the contract for Manitoba, had the support of the Winnipeg Board of Trade and other organizations.

To Extend News Service

Movement To Enlarge Newspaper Service In Western Canada

Newspaper publishers and editors of western Canada, members of the Canadian Press, met at Vancouver recently to plan for the extension of the news service in western Canada following the printerization of the leased wire telegraph circuits now in progress from Winnipeg to Victoria, which will about double the service laid down in the daily newspaper offices and will permit scope for much freer interchange of news as between the four western provinces, as well as the publication of more eastern Canadian news in the west and more western Canadian news in the east.

Proposals of the management for the betterment of the news service, both foreign and domestic, were endorsed and in particular the meeting went on record as recommending to the board of directors of the Canadian Press the early establishment at Tokyo of a Canadian Press staff representative, now that a Canadian ministry has been established in Japan.

Awful Asthma Attacks. Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the bringing to his attention of Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation upon what it has done for others. It has a truly wonderful record, covering years and years of success in almost every part of this continent, and even beyond the seas.

To Pay \$20,000,000 In Cash

The growing prosperity of Canada is indicated in the official announcement that the Canadian Government will redeem in cash a loan of \$20,000,000 payable on February 1, 1930. The revenue of Canada was greater in the first ten days of the current fiscal year than the total for the whole of the year 1928, the first year of Confederation. The surplus of revenues over expenditures last year would have more than paid off the national debt of Canada as it stood in the early seventies of the last century.

Real Service

If a shower comes up in the city of Berlin, the pedestrians will find on the next corner an automatic machine for the vending of umbrellas. Drop 15 cents in the slot and walk off with a brand-new storm shelter. The umbrellas are made of oiled paper and are not last a lifetime, but they are good for a dozen or more storms, and are right handy when the drops are dropping.

The so-called Arab'ian horses were really first domesticated in North Africa by the Libyans, probably as early as 2,000 B.C.

That Gore Throat Needs Minard's.

To Discuss Educational Matters

Premier Anderson, Of Saskatchewan, Will Hold Informal Conference

Representatives of various organizations throughout Saskatchewan will be invited to come to Regina and in an informal conference discuss with Premier J. T. Anderson, educational problems.

In making the announcement that such a conference would be held at a date to be fixed later, Premier Anderson said he hoped to be able to focus the thought of the people of Saskatchewan on the subject of educational development and to enable him that wherever citizens are organized for civic or social welfare consideration should be given to the contemplated changes in curricula.

Touching on the new course of study being prepared for public and high schools, the premier, who is also inquirer of education, expressed the hope that wherever citizens are organized for civic or social welfare consideration should be given to the contemplated changes in curricula.

"It would be useless," he said, "for us to prescribe courses of study which are not understood and appreciated, or which have not the solid support of a large majority of the people who pay the taxes and whose children attend the schools."

Stating that a mass of criticism had been directed against rural education in Saskatchewan, the premier said those schools needed to be vitalized and brought into harmony with the actual requirements of rural life in Saskatchewan.

"I am particularly anxious," he said, "that home makers' clubs, local lodges of both sexes of the United Farmers of Canada, various social study clubs, service clubs, church societies, trades and labor councils, boards of trade, civic and social organizations of all kinds, shall join with us in the study of educational problems and offer suggestions for improving our system of education."

Riel Veteran Dead

Old-Timer In The West Lived To See Many Changes

Murdoch McLeod, 88, Edmonton's oldest old-timer, died in that city recently, following a brief illness. As an apprentice boy of 15, he left the Hebrides to take service in the ranks of the Hudson Bay Company. He was a prisoner during the Hiel Rebellion on the prairies, and was held for 22 weeks and two children, 15 half-breds and 50 cars and wagons, trekked over the prairies from Winnipeg to Edmonton, the trip taking from September 1, 1875, to November 18.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

There are 21 million telephones in the United States which can be connected to seven million in Europe for conversation, using radio telephony across Atlantic.

When it comes to sweat, says the Toronto Globe, Canada is sure of her ground.

Accidents in London streets are responsible for four people killed and 176 injured every day.

TOO MANY GIRLS—

dry, wintry weather for the texture it brings from sore faces, chapped hands, frostbite and cold-area.

With the face, hands and arms protected by Zam-Buk, frost and cold winds simply cannot reduce, roughen and chafe your skin. Wash with Zam-Buk and after drying, reapply the Zam-Buk balm after drying.

There is nothing like the Zam-Buk treatment for keeping the skin smooth, strong and flexible. Composed exclusively of rich herbal essences, Zam-Buk soothes and purifies the tissues and prevents all roughness and soreness.

Where the skin has already become chapped, blistered and sore, Zam-Buk, because of its great antiseptic and healing power is doubly valuable. It takes away the smarting irritation almost immediately, kills dangerous disease germs and quickly heals with new healthy skin.

Zam-Buk is the best remedy obtainable for chapped, cracked and hands, cold-area, frostbite, chilblains, winter eczema, burns, scalds, and all wounds and injuries. 10c. box, all chemists.

Canada's Water Power

Development Was Crudely Started By Early French Settlers

The development of Canadian water powers had its inception in the efforts of the early French settlers to produce power to meet local needs for grinding grain and sawing lumber. With the application of the electrical generator to commercial uses a little over forty years ago a new industry—the production of electricity for public use—came and a new era in the development of water power came into being. Since that time the two have advanced together until at the end of 1928 Canada's hydraulic installation had reached the imposing total of 5,349,252 horse-power, of which 4,455,693 h.p. was used in generating electricity for general public distribution.

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In the early conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

B.C. Lumbering Operations

Four hundred lumberers are engaged in manufacturing lumber products in British Columbia, involving an investment of 200 million dollars. In 1928, the cut was over three billion feet. These plants employ forty thousand people and pay out in wages six million dollars annually.

The strong no less than the weak must bear the penalty of their own natures. The man or woman who has learned to stand alone must not complain if left to stand alone much of the time.

WILL TAKE STEPS TO PROVIDE WORK FOR UNEMPLOYED

Winnipeg.—Several government departments have been requested to co-operate in as many ways as possible with municipalities and provinces in meeting the unemployment situation through such agencies as they are in a position to employ.

This is made known in a telegram received here by James Grant, chairman of the Manitoba Association of Unemployed Ex-service Men. The communication was received from Harry Baldwin, secretary to Premier Mackenzie King.

The telegram was in reply to one sent by Mr. Grant to the prime minister requesting immediate assistance for the unemployed ex-service men.

The departments that have been requested to co-operate with municipal and provincial authorities include the departments of public works and railways and canals.

While there has been no official pronouncement from the Dominion authorities, it is understood here that the government is considering commencing public works construction in various centres immediately to assist the unemployed. Ordinarily, the work to be undertaken would not be started for some months.

Children Die In Fire

Three Smothered By Smoke Before Rescue Could Be Made

Hull, Que.—Fire which broke out while they were playing about their home, took the lives of the three children of Mr. and Mrs. Pierre Parise here. The theories entertained as to the origin of the fatal blaze are that either the children were playing with matches or an electric heating plate set fire to the walls.

The dead are: Jean Paul, aged five years; Paulette, two years and six months; and Adrienne, seven months. The conflagration, breaking out during the brief period the mother absented herself to telephone from the ground floor apartment of the triplex in which the Parise family resided, gave off such a volume of smoke that the little tots were smothered before a rescue could be effected.

Canada May Have Civil Service Council

Minister Of Labor Forecasts Establishment This Month

Ottawa.—Establishment of the National Civil Service Council before the end of January was forecast by Hon. Peter Heenan, Minister of Labor, addressing the civil service association, of Ottawa. The council, modelled along the lines of the Whitley Council in Great Britain, will consist of representatives of each branch of the service and will act as liaison between the service and the government.

May Face Prosecution

Renowned Proceedings May Start Against Persons Named In Waldron Report

Ottawa.—Although official confirmation is lacking, it is understood the justice department has decided to institute proceedings against more than 100 persons named in the report of Gordon Waldron, K.C., as being parties to a combine in a restraint of trade.

Ernest Lapointe, Minister of Justice, said that announcement of the department's decision might be expected within the next few days.

Express Fear For Islanders

London, Eng.—The Daily Express expressed grave fear for the inhabitants of Bardsey Island off Carnarvonshire, who have not been reached from the mainland since December 15, due to the gale which has been most persistent since then. They were believed to be without food. There has been no response to beacon lights and other signals, which is declared to be unprecedented.

American Women For Peace

Washington.—Five hundred women delegates to the Cause and Cure of War conference, opened at the State office building in an effort to obtain the support of senators in behalf of United States adherence to the World Court.

Will Be Guest At Banquet

Ottawa.—On his return from his tour in Western Canada, Hon. R. B. Bennett, Conservative leader, will be the guest of honor at a banquet in Clinton, Ont., on January 29.

W. N. U. 1821

Start Hazardous Trip

Five Men Making Journey Across Rockies On Skis

Jasper.—Five young men have left Jasper, Alberta, on a 300-mile ski trip across the Rocky mountains to Banff. It will be one of the most hazardous adventures of its kind ever undertaken and if the trip is successful it will be the first time such a crossing has been made during the winter months.

The members of the party are: Vernon and Allen Jeffrey, Pete Withers, Frank Burstrum and Joe Weiss. All of Jasper Park, and all experienced mountaineers and skiers. They expect to conclude their trip by February.

The adventure was planned last spring and during the summer adequate caches were placed at strategic points along the route which, in some cases, will be more than 9,000 feet above sea level. At such altitudes very low temperatures, in some cases sixty below zero, are likely to be encountered, and the party will also have to face such dangers as unknown snow conditions and the elimination of trail gullies that are visible during the summer.

As far as is known this is the longest continuous ski trip ever attempted anywhere in the world.

Korean Students Strike

Over Ten Thousand Said To Be Involved In Trouble

Seoul, Korea.—One thousand Korean students including 250 girls, have been arrested as a result of a strike of 13 college and high schools, including two missionary institutions run by United States societies.

The strike involved students estimated to number 10,000. It occurred during the post-holiday examinations, and ostensibly out of sympathy for the 900 students arrested last month. The December strike was said to have been due to long standing quarrels between Japanese and Korean students in the middle schools.

Many of those arrested last month still are in prison. Japanese authorities believe the new strike was engineered by a street society with Communistic tendencies.

Rust Resistant Wheat

Marquette Wheat Grown At Saskatchewan University For Some Years

Saskatoon.—Although Marquette wheat, now recommended by the University of Minnesota, is a production of the plant breeders at that university, it has been grown at the University of Saskatchewan for a number of years, and has proved highly rust resistant and equal to Marquette except for a slight yellowness of four color.

This wheat has been crossed with the Marquette at the University of Saskatchewan and Dr. J. B. Harrington, in charge of that work, expects to have offspring of this cross which gives great promise of extremely high milling quality along with the rust resistance of the Marquette parent.

Launch Big Undertaking

Alberta Livestock Pool Is Going Into The Packing Business

Lethbridge, Alberta.—The Alberta Livestock Pool will go into the packing business with the former high standard is kept. The only way to do this is to follow the advice of Cato, who, two thousand years ago, said: "Plough well, sow good seed and keep down the weeds." The C.S.G.A. offers facilities for the growing of good seed equalled by no other organization in the world, and it is up to the farmer to protect his own interests.

New German Cruiser

Is Named After Vessel Sunk In Battle On The North Sea

Wilhelmshafen, Germany.—The new German Cruiser "Koeln" — 6,000 tons, was ceremoniously commissioned recently, replacing the old cruiser Amazone withdrawn from service. Commander Von Schroeder, in a speech, recalled that the first "Koeln" was sunk in battle in the North Sea, on August 23, 1914, and that only one man was saved after clinging three days to a piece of wreckage. The second "Koeln" was sunk at Scapa Flow.

Application Withdrawn

Ottawa.—The board of railway commissioners has been advised that the application of the Express association for increased rates on express matter throughout Canada is withdrawn. The application for increased rates was made about a year ago and hearings have been pending since that time, until the association decided to withdraw its original demands.

May Migrate To Mexico

Doukhobors Sending Delegation To Investigate Lay Of Land

Saskatoon.—Doukhobors of Canada district are sending six latest delegates to Mexico to investigate the lay of the land with a view to possible migration on a considerable scale when spring comes.

Decision to send the delegation, which will represent both brotherhood and independent doukhobors, was made at a largely attended meeting in Canada.

Of the delegation which is going to Mexico, two will be from the brotherhood at Verigin, one from British Columbia, and the other three men are Savelle Chernoff, of Verigin; Wasyly Novokhoshonoff, of Buchanan; and W. Popoff, of Blaine Lake. Peter Verigin, well-known Doukhobor leader, whose father met a violent death in 1924, will accompany the delegation as far as New York. Verigin presided at the Canada meeting.

FARMERS MUST MAINTAIN HIGH WHEAT QUALITY

Saskatoon, Sask.—Unless Canadian farmers maintain the high quality of their wheat, they are in imminent danger of finding no market for it, according to Major H. G. L. Strange, of Fenn, Alberta, who addressed the convention of the Saskatchewan Field Husbandry Assoc. at the University of Saskatchewan.

Major Strange, once winner of the grand award of the International Hay and Grain Show, at Chicago, and an enthusiastic seed grower, has made a study of the conditions in respect to marketing wheat, not only in Canada but also in England and in continental Europe.

"The man who buys is the important man," stated Major Strange, "and not the producer. If we do not provide a product of quality and at a price which suits the consumer, we will not be able to sell it. Not long ago the cry was raised for two dollar wheat, and we were told that the world could not get along without our grain. During the last six months we have been shown how well the world can do without Canadian grain, for the millers of Europe have reduced the percentage of flour from our wheat, which is mixed into their bread, from 35 to 10."

This, stated the speaker, was not because they objected to the higher price altogether, but because the quality in the last few years has been sacrificed for quantity in production. Countries buying Canadian wheat are devoid of sentiment, and Canadians sell their grain to Britain and then buy goods from the United States. The Argentine buys goods with the money received for their grain, and keeps a good customer. Sheer economic necessity compels the British buyers to go where they can get the most value for their money and sell the most goods in return.

Russia is again in the market, and as a result, the price of wheat drops eight cents in Canada. There is no reason for Canadian farmers, with the advantage in methods they have gained in the past five or ten years, not holding the top of the world market for their wheat, if the former high standard is kept. The only way to do this is to follow the advice of Cato, who, two thousand years ago, said: "Plough well, sow good seed and keep down the weeds." The C.S.G.A. offers facilities for the growing of good seed equalled by no other organization in the world, and it is up to the farmer to protect his own interests.

COUNTRESS OF SEAFIELD

The engagement has just been announced of the Countess of Seafield, youngest British countess in her own right, and one of the richest women of England, to Derrick Studley Herbert, formerly an officer in the Grenadier Guards. He is now engaged in business in London.

Have Important Task

Committee Will Try To Co-ordinate Parts Of Peace

Geneva.—The personnel of the important committee which will have the task of bringing the league's disarmament covenant into harmony with the Kellogg-Briand peace pact, has been made known by the council of the League of Nations.

The members, meeting on February 12, will be: M. Adachi, Japan; Lord Cecil, Great Britain; B. B. Von Burow, Germany; E. Cobian, Spain; Mariano Cornejo, Peru; Perre Cote, France; Vittorio Scialoja, Italy; Francisco Sokol, Poland; Nicholas Titulesco, Rumania; M. Unden, Sweden, and Woo Kal-Seng, China.

Their task will be to fill in the gap in the league covenant which tacitly allows armaments consistent with national security and implies action by league members against a nation which starts an aggressive war. The later pact of Paris renounces war altogether.

Selecting Winner Of Trophy

Trans-Canada Air Award To Be Made Shortly

Ottawa, Ont.—The Department of National Defence has sent out a circular letter addressed to all aviation concerns in Canada inviting recommendations for guidance in the award of the McKee Trans-Canada trophy.

The Trans-Canada trophy, donated by the late J. Daisel McKee, is awarded annually to the Canadian pilot making the greatest contribution towards the advance of aviation in this country during the year. Pilots in the employ of government services are barred.

Last year the trophy was won by "Punch" Dickins, and the year before by Captain H. A. "Doc" Oaks.

Naval Architect Dead

Victoria.—One of the most widely known architects of this city, and who had by his credit the building of three Spanish cruisers that took part in the battle of Santiago, in 1898, and was founder of the steel ship building industry in Japan, is dead here in the person of James Stewart Clark, following a prolonged illness. He was a native of Toronto, Ayrshire, Scotland, and was eighty years of age.

Chinese Railroader

Jun-Kai Choy, special representative of the Ministry of Railways for the Chinese National Government at Nanking, China, (right), who arrived at Saint John, January 4th, from Great Britain, on board the Canadian Pacific liner "Duchess of Richmond," with Mrs. Choy, (centre), and P. C. Chen (left). Mr. Choy is greatly interested in Canadian railroading, and when in Montreal, had conferences with Grant Hall, Vice-President of the Canadian Pacific Railway, and with other officials. Mr. Choy expressed himself as deeply impressed with the Canadian Pacific System.

Vessel Adrift On Atlantic

Reward Is Offered For Return Of Schooner To Newfoundland

Halifax.—A reward of \$1,000 is being offered by the government of Newfoundland to any officer of any ship who goes aboard the schooner "Neptune" and brings back to Newfoundland the vessel that is drifting at the mercy of sea and wind some where in the North Atlantic. Her captain, accustomed to shore navigation, is unable to bring her to port.

This information, broadcast from Cape Race, was received by C. H. Harvie, local marine and fisheries agent. Hundreds of ships crossing the Atlantic would pick up the message. The schooner has been drifting helplessly since it left St. John's Nfld., on November 29, and was driven out to sea by a hurricane that scattered the fleet of 10 vessels with which the "Neptune" was bound for home ports on the northeast coast of Newfoundland.

The "Neptune," carrying 19 persons, was reported "all right," 720 miles southeast of Newfoundland on December 15.

U.S. Automobile Fatalities

Figures Show 31,500 People In 31 States Killed In Auto Mishaps

Chicago, Ill.—Figures made public by the National Safety Council showed 31,500 persons were killed in automobile accidents in 31 states during 1929.

The total was 13 per cent. more than in 1928, the year said, when motor vehicle registration increased only 8 per cent.

More than half the victims were pedestrians.

TAKES HOPEFUL VIEW OF SUCCESS OF NAVAL PARLEY

London, Eng.—Great Britain can move on the principle that other nations may correspondingly with her, and that when an agreement on naval disarmament is arrived at, it shall represent an international policy adopted by the other nations as well as Great Britain, this comprised the keynote of the formal remarks made by Prime Minister Ramsay MacDonald, when he met a couple of hundred newspaper correspondents of all countries, both resident in London and special sent to the British capital, who will report the naval disarmament conference.

Among points the prime minister established, were that Great Britain is looking for the eventual elimination of the battleship, both on account of its tremendous expense (Mr. MacDonald mentioned they cost £1,000,000 apiece), and also because of the differences among naval experts concerning the utility. Until battleships are eliminated it is sought to effect a gradual reduction in their tonnage and gun-power when replacements are made.

British authorities, the prime minister continued, took a hopeful stand on the instruments already effected, such as the Locarno pact, the optional clause of the world court agreement, and the pacts of Washington and Paris with a number of additional regional agreements. These instruments had already given the whole world a great feeling of security, so that a great feeling of war had already been reduced, it was surely reasonable, he said, to expect armaments could be reduced.

Premier MacDonald stressed that if the conference failed, it would mean the world would be faced with 10 or 20 years' competitive naval building. But he was confident it would achieve a treaty effective in reducing navies to the lowest level consistent with national safety.

Today also, Lord Bridgeman, first Lord of the Admiralty, in the former Conservative Government, attacked the Labor Government for lowering the British level of cruisers necessary for Empire defence, from 70 to 50. The justification for this given by the government, the improved atmosphere resulting from the Paris pact, "is most unconvincing," Lord Bridgeman said.

Speaking to the British Naval League, Lord Bridgeman added the belief that some agreement might be reached in a spirit of give-and-take; "but others must give as well as ourselves."

At another meeting, Vice-Admiral E. A. Taylor also expressed grave fears for the future of British naval defence and some doubts as to the security offered by the Kellogg-Briand pact.

"The Kellogg pact is no guarantee whatever that war is a thing of the past," Vice-Admiral Taylor declared.

ANTI-LIQUOR CAMPAIGN TO THE FORE IN THE U.S.

Washington.—The close of the first decade of national prohibition in the United States, found anti-liquor laws figuring prominently in the news from widely separated sections of the nation.

At Washington congressional committees prepared legislation to carry out recommendations for improved enforcement, sponsored by President Hoover and the law enforcement commission.

Chas. Mann Wickham, of the commission, issued a statement supporting the constitutionality of the proposed for trying minor prohibition cases before U.S. commissioners.

Leaders of the anti-saloon league met at Detroit and began sessions with recommendations for "an aggressive, militant fight" against the law.

An announcement was made at Lansing that Michigan state police will use machine guns and tear bombs to prevent rum running. Governor Green, of Michigan, commuted the sentences of five prohibition law violators serving life terms under the state's formal criminal code.

Governor Dillon, of New Mexico, recommended the use of the army to patrol the borders as a test of the dry laws.

Governor Richards, of South Carolina, recommended to the state legislature that buyer and seller of liquor be made equally guilty, with a jail sentence mandatory upon the second conviction.

Seventy-one persons were arrested in prohibition raids at Columbus, Ga. A federal judge at Jacksonville, Fla., ruled against the state law, but he made definite knowledge that an automobile can't be a liquor before the vehicle can be searched.

At Oklahoma City, 102 persons charged with conspiracy to violate dry laws were sustained in a motion for a bill of particulars.

Governor-General Returns

Party Of Prominent Persons Greet Lord Willingdon At Ottawa

Ottawa.—After an absence of six weeks spent in a cruise to Bermuda and the West Indies, Their Excellencies the Governor-General and Viscountess Willingdon returned to the capital recently. They were warmly greeted at the union station by a party of prominent persons including Premier Mackenzie King, and Rt. Hon. F. A. Anglin, Chief Justice of the Supreme Court, who acted as administrator in His Excellency's absence.

Want Old Age Pensions

Immediate Acceptance Of Government Pension Plan Is Urged For Quebec

Quebec, Que.—William Tremblay, Conservative M.L.A. for Maisonneuve, urged the immediate acceptance of the Quebec Government's pension plan, in the legislative assembly, in the course of the debate on the address in reply to the Speech from the Throne. He argued that the people of Quebec were adding in the payment of pensions in other provinces through the Dominion taxes and getting nothing for their own aged people.

Dry Educational Campaign

Detroit, Mich.—A \$50,000,000 dry educational campaign was outlined at a meeting of the anti-saloon league here by its chief, Dr. Ernest H. Cherrington, who declared that education against alcoholism presents the "greatest challenge the socially-minded leaders of an alcohol-free America" have faced in the last hundred years.

Saskatoon Town Planning Scheme

Saskatoon, Sask.—A representative of the firm of Wilson Bunnell and Bangstrom, of Toronto, consulting engineers, will be brought to Saskatoon to make a study of conditions here from the stand point of town planning. Definite recommendations with respect to zoning, traffic, bridges, major streets, and other questions are sought.

Don On Parrots

Berlin.—The official gazette prohibited the importation of parrots into Prussia to guard against the spread of pottacosis, or "parrot's disease," discovered in many parts of Germany. The embargo is effective immediately and until further notice.

There are more than 10,000 doctors in the United States who practice as specialists only.

NOTES AND COMMENTS

Various topics have furnished food for conversation during the week. The weather, as usual, is for most, for an almost three weeks unbroken spell of sub zero temperatures has more than satisfied even those who say "you really don't feel the cold of these Canadian winters."

It calls to mind the poem of Robert Service, "The Cremation of Sam McGee" who was so impervious to cold he lived even though frozen stiff, and only awoke when he was thrust into a furnace. When his partner opened the door to see if he was thawed out, he told him to shut the door to keep out the draught.

Some of the curlers must have felt like that last week. They have since been feeling the effects. Cue hasn't been able to get his teeth to meet since.

The great event of world-wide importance was the opening of the naval parley in London, to which world-wide interest was added by the splendid achievement of radio engineers in enabling the opening addresses of the King and representatives of the great naval powers to be broadcast over the world. It impresses one with the value of radio in bringing millions into direct contact through the human voice of those engaged in trying to solve a problem which affects all peoples. It is a great agency for promoting increased friendly feeling between nations, and so keen was the interest aroused by this world-wide hook up that many arose at 3 a.m. on Tuesday to tune in on the most remarkable radio achievement recorded. And Coleman radio fans enjoyed the experience with the rest of the world, reception being remarkably clear.

The prize joke of the week is a resolution on the program of the U.F.A. convention at Calgary as follows: "Whereas, the price of coffins is very high compared to the actual cost of production, and whereas, this works an undue hardship on many to bury their dead, and whereas, we all have to die; Be it resolved that the government be asked to take on the business of selling caskets to the people of this province at a price nearer their actual cost."

Possibly the prohibitionists may be behind this resolution, as they are very active in denouncing the effects of liquor which the government sells. They should have added to their resolution the recommendation that the government liquor vendors

(Continued on Page 8)

Town of Coleman Financial Statement FOR THE YEAR ENDING DECEMBER 31, 1929

CALGARY, ALBERTA,
January 15th, 1930.

THE MAYOR AND COUNCILLORS,
The Town of Coleman, Alberta.

Gentlemen:—

In accordance with your instructions under the provisions of the Town Act, 1927, I have audited the books and records of the Town of Coleman for the year ended 31st December, 1929, and beg to report that I have received all the information and explanations I have required, and that all my requirements as Auditor have been complied with.

For your information, in addition to completing the printed Financial Statement Form furnished by the Department of Municipal Affairs of Alberta, I have prepared the attached statements:—

1. Cash Statement for the year 1929.
2. Revenue Statement for the year 1929.
3. Balance Sheet as at 31st December 1929.

The Cash Statement records the details of all cash received and paid out during the year 1929 regardless of what it related to, and this Statement shows that the Town paid out \$311.04 more than was actually received.

The Revenue Statement deals only with the Receipts and Payments that are properly chargeable to the operations of the Town for the year 1929, and this Statement shows that a surplus of \$492.69 resulted; but this surplus, you will note, is arrived at by assuming that all the Taxes levied in 1929 were paid. This Statement does not record any expenditures made to increase the Assets of the Town, viz. the cost of the retaining wall, \$104.00, or the cost of the basement for the town building and fire hall, \$104.20. This Revenue Statement does include the regular annual allowance for depreciation of all the assets of the town.

It was necessary to renew for nine months one of the Local Improvement Notes (\$1000.00) that matured in November 1929, in order to enable the basement for the town building and fire hall to be undertaken as a means of providing needed work for relief purposes. The balance of the notes (\$3000.00) that matured in 1929 were paid in full and all interest was also paid in full.

You will note that the Cash Statement shows an increase of some \$98.59 in the cost of street lights, etc., for 1929 compared to 1928.

In accordance with the requirements of the Town Act of 1927 I have visited the Town of Coleman office four times during the past year, and I am pleased to report that at all times was the work up to date, the cash properly deposited with the Canadian Bank of Commerce, and the several books in balance.

Although the Town of Coleman has at last secured an order from the Board of Public Utility Commissioners for Alberta enacting the payment to the Town of Coleman by the Coleman Light and Water Co. Ltd. the sum of \$120.00 payable in three annual instalments, no payment has yet been received by the Town in this respect, but the accounts for 1929 show that the balance due Mr. C. J. Ford for legal fees in connection with the representation of the Town of Coleman before the Board of Public Utility Commissioners, has been paid in full.

Subject to the foregoing, I certify that in my opinion the attached balance sheet is properly drawn up to show a true and correct view of the affairs of the Town of Coleman as at 31st December 1929, according to the best of my information, and the explanations given to me and as shown by the books of the Town.

E. D. BATTRUM, Auditor.

LIFEBOAT—WOMEN NOW!

WOMEN may soon "man" the lifeboats now, if this young lady's example is followed. Miss Lilly Allison, stewardess on the Cunard liner "Albatross," is the first woman in the 90 years of Cunard history to pass the British Board of Trade examination and receive a certificate as a "lifeboatman." She is here seen receiving instructions from Third Officer MacKellar on the ship.

Here and There

(450)
The new north wing of the Empress Hotel, Victoria, western outpost of the Canadian Pacific Railway chain of hotels across Canada, was opened recently at a function presided by Hon. S. F. Tolmie, Premier of British Columbia, and attended by over 1,000 visitors including civic officials. It represents more than 200 additional rooms and a number of beautifully decorated suites, including vice-regal, Jacobean, Italian, Spanish and Flower, and was built at a cost of approximately \$2,000,000.

Progress on the Princess Joan and Princess Elizabeth, Victoria-Vancouver, night service boats of the Canadian Pacific Railway, has been so rapid that Captain C. D. Neouton, manager of the B. C. Coastal Steamship service, has announced that the trial trip of the first vessel to be ready will be March 25. Each ship has five decks and berthing capacity for 431 persons.

In the great Chinese province of Manchuria, equal in area to Germany, Marshal Liang Chang, 29-year-old war lord, is experimenting with education on a colossal scale to bring his war-ridden people to peace and progress, is the statement of John Nelson, former publisher of the Vancouver World, who recently landed from the Empress of Russia at Vancouver on his return from the Orient.

Great industrial development throughout western Canada which in the last two decades has brought the annual gross value of manufactured products produced in the western provinces to \$500,000,000 was described recently by John P. Sweeting, industrial commissioner of the Canadian Pacific Railway, in an address to officers of the company at Winnipeg. "Those of us who have lived through and watched western Canada develop during the last 20 years are assured as to the future of that part of the Dominion," he said.

"Railway conditions as they exist in Canada to-day are readily comprehensible and we are in the fortunate position of being able to assure our shareholders that the decreases represent the result of an extraordinary combination of conditions and that the railways have not failed in efficiency or otherwise," stated E. W. Beatty, chairman and president of the Canadian Pacific Railway, in an address recently at the Royal York Hotel, at the annual meeting of the Commercial Travellers' Association of Canada. Mr. Beatty added that the situation in 1929 was exceptional and not likely to be repeated in subsequent years.

The North German Lloyd Company of Montreal is arranging for a trip of German farmers to Canada next summer with a view to investigating Canadian conditions and agricultural opportunities. The trip will commence with a visit to the Annapolis Valley, stopping at Kentville to visit the Experimental Farm and the orchard country of Nova Scotia.

The Department of Lands and Forests reports that 1,076 moose and 1,355 deer were killed in Nova Scotia during the hunting season of 1929.

New Brunswick's potato crop for 1929 will have an official valuation of at least \$3,000,000 placed upon it according to intimations of the Provincial Department of Agriculture officials, when the final report on agricultural conditions for the crop season was issued recently.

Here and There

(450)
Running well ahead of schedule steel work on the 21-story addition to the Empire's largest hotel, the Royal York, additional construction is being rapidly pushed forward and the sixth story is now completed. All steel work is expected to be finished early in February and everything will be completed by June 1st, when there will be a total of 1,181 guest rooms at this palatial Toronto hostelry.

Hitting a 90-mile an hour clip, a special Canadian Pacific train recently carried two-and-a-half-year-old Delphis Morin, who was thought to be dying of intestinal influenza, from Sudbury to Toronto, for a blood transfusion in the Toronto Western Hospital. Leaving at 1:05 the train reached destination at 6:35, all traffic having been held aside for the special. At 8 the operation was performed and half an hour later the boy was smiling at his friends. He is now well on his way to recovery.

Fighting against Atlantic winter gales the cable ship John W. MacKay has just successfully completed another epic of the seas in effecting repairs to the high speed cable of the Commercial Cable Company over which much of Canadian Pacific cable business is carried to Europe. The cable was smashed in the great quake of November 18, the break being discovered within 36 hours of the arrival of the ship on the scene, raising the cable from a depth of 25 miles and at a point 50 miles from the western end of the break being part of the job to be done.

"Canary Kordyke Alcantara" a five-year-old Holstein Friesian cow, which a year ago claimed the world's championship as a butter-fat producer with 26,356 pounds of milk containing 1,000 pounds of butter-fat in 305 days, has beaten her own record. Following her 1928 record this famous cow was the guest of honour at a banquet in Moose Jaw. The latest record for "Canary Kordyke Alcantara" is 26,801 pounds of milk with 1,236.25 pounds of butter-fat.

Honey to the amount of 55,311 pounds was produced in Nova Scotia in 1928, according to official figures, and the 1929 output will likely be much larger as the summer season of that year was much more favorable, says Philip Bishop, of Greenwich (Port William), the largest bee-keeper in Nova Scotia.

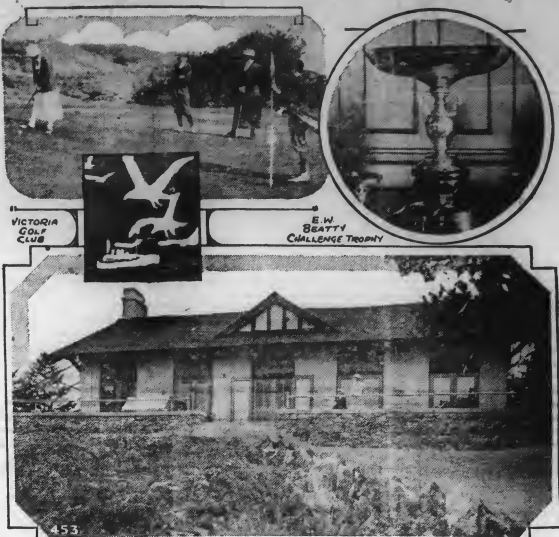

Within from four to five years thousands of farmers throughout the province of Saskatchewan will have the benefit of all-weather roads running in all directions. The provincial government plans to spend \$5,000,000 annually during the next few years on the construction of six main highways, all-weather surfaced.

Notwithstanding the growing popularity of the motor car and motor power farm implements, the horse is evidently not going into the discard as rapidly as some people might be inclined to believe. Latest official estimate of number of farm horses in Canada as in June, 1929, is placed at 3,376,487. In 1919 the number was 3,667,352, a difference of only 290,865.

About 50,000 tons of hay have recently been ordered from Eastern Ontario and Quebec to buyers in the British Isles. The 1929 exports of hay from Canada are actually in excess of those of 1922.

PERSONAL STATIONERY
The Journal office will print 100 good quality envelopes for \$1.00, or 100 letter size paper for \$1.00, printing limited to three lines consisting of name and address. Cash at time of ordering. Leave an order for your personal correspondence.

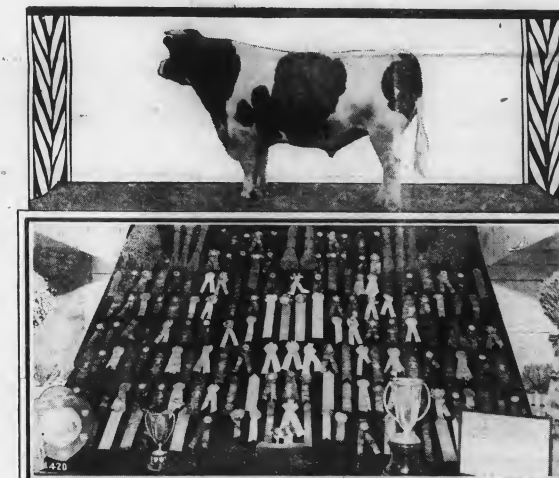

Canada's Winter Golf Tournament

COLWOOD GOLF AND COUNTRY CLUB

Victoria, capital of British Columbia, whose golfers enjoy their game the year round, owing to the ameliorating influence of the Japanese current, will hold its second annual Mid-Winter Golf Tournament under the auspices of the Empress Hotel Feb. 17-23, 1930. This tournament is an amateur handicap affair open to both men and women competing in their own sections. The principal trophy is the E. W. Beatty Challenge Cup at present held by T. L. Swan and Mrs. Hew Peterson of Victoria, although a large list of other prizes is being posted. The tournament will be played over the Colwood Golf and Country Club's course, which winds through a vast forest of Douglas fir, some of them 25 feet in circumference, and ancient, gnarled oaks and cedars dating from the time when Vancouver Island was sighted by Capt. George Vancouver. If the entry becomes too formidable the Victoria Golf Club will be held in reserve for the overflow. All visitors to Victoria are eligible for this tournament.

C.P.R. Herd Wins Hundreds of Prizes

Here are some of the 179 first prizes and 73 championships and reserve championships won by the Strathmore Farm herd on the prairie and coast show circuits during the current and last year. The Strathmore show herd of fifteen Holsteins won 109 first prizes at 8 major exhibitions in 1928 and 79 firsts in 1929. The shield at lower left was won by a carload of calves from the Canadian Pacific farm at Chin, Alberta in 1928. The large cup, right, was won at the Calgary spring show for the best purebred Ayrshire Angus heifer. Diploia at right was won by the Holstein Bull Strathmore McKinley Fairchild Wayne as grand champion in 1928. He is shown above and he went through all western fairs without a defeat from 1927 to date. He was Grand Champion at the three coast fairs and also at Saskatoon. The Canadian Pacific Railway thus own one of the finest, if not the finest, herd of cattle in Canada. The company has done a great work in improving the breed of cattle throughout the West.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, marries Molly Winton, a ballet singer, not knowing he is loved by Grace Farrell, a loyal little cigarette girl. After Al wins fame as a composer of popular songs, Molly elopes with John Perry, taking her baby, Junior, as she sails for France. Al, broken by the loss of his son, becomes a derelict, but is saved by Grace Farrell, and recovers to appear in a Broadway revue. One night he receives a phone call from Molly and rushes to a hospital to find John or fatally ill. He sings to Junior, but his son dies. Then Al dashes back to the theatre to find he must sing the same song to his audience.

CHAPTER XXXI.

The bright lights were on, the stage was empty, the orchestra played the opening bars that heralded Al's entrance. But still he stood in the wings as if in a trance, fearful of attempting the song he had just sung to his dying child. The orchestra stopped, started again, and the stage manager ran toward him.

"That's your number, big boy."

"I can't sing that song," protested Al. "Not tonight."

The stage manager saw something was wrong, but he didn't know what. "It's too late to change, now. Al, it's your hit song. Think of the show!"

The show! Al walked on the stage, driven by sheer force of will. There were the lights, there was the orchestra leader, beyond were the dim sea of faces of the audience. Without knowing it, he fell into his character, the happy-go-lucky singing fool. A roar of applause came up and met him like a great wind. He went into his song, believing he could carry on.

The stage manager relaxed and turned to Grace. "What's the matter with him?"

Quickly Grace explained and they both watched Al with anxious eyes. Would he make it? He was singing bravely, but it was apparent to the well trained ears that he was faltering

and now then. When he came to the chorus the quaver in his voice was so intense. Once his voice broke entirely.

Suddenly it seemed to Al as if that sophisticated audience did not exist. Instead of grown-up faces he saw hundreds of faces of babies and children, pleading and beckoning to him. Babies and children, who had drifted off into Never-Never Land, and among them Junior! Junior's face and figure came toward him with arms outstretched.

Only Grace understood the dreadful ordeal he was passing through. She felt as if he were sinking into the sea of light while she stood by, unable to aid him.

To the audience it seemed as if the intense fervor of Al's singing, which was only a phase of his skillful rendering, but the musicians caught the occasional minor breaks and glanced up with worried expressions.

Then the end came—Al simply broke off singing in the midst of his song. The audience, seeing Junior as plainly as he had seen him at the hospital. . . . Where was he? Oh, yes, the theatre, the lights. He tried to rally, choked, and stopped again. Swiftly the stage manager signalled to have the curtain lowered.

As the curtain came down Grace ran forward and caught Al in her arms. The stage manager was by her side to put an arm about his star singer and help him toward his dressing room. From beyond the curtain came the strident beat of the applause. The audience was bewildered, but it realized that the best tribute could give was due the man who had just stood before it.

Al collapsed in his dressing room chair, his head dropping limply forward on his chest. What had happened?

On the way he remembered he had tried to sing and failed. He raised his head, gazed around the room curiously and brought his eyes back to Grace's face. Here was dear, loyal Grace standing before him—that was a help, at any rate.

"I guess I fopped, darling."

Grace did not answer. She simply took his face in her hands, holding it firmly and gently, as if to soothe the trembling muscles. How curiously large and brilliant his dark brown eyes seemed with the solid black make-up around them.

As Grace tried to quiet him Al saw Junior's photograph and heard the ticking of his watch, which seemed strangely loud. It was like a voice telling him that time was passing and that his baby had gone away.

He picked up the watch and began slowly turning the hands backward—to nine o'clock, to eight, seven and six. Then he stopped, weary and sick.

His voice and eyes were rational now and she saw a tear splash across the watch case.

"I'm turning my watch back," he said softly, "to the time when he was still alive."

No one but Al and Grace knew the fierce struggle that little Grace passed through after Junior's death to save the man she loved.

It seemed as if the menace of his first breakdown lurked, like an ogre, just around the corner, waiting to pounce out and send him down and out. His chance came with the passing of the little boy Al had loved with his whole heart. So the ogre of despair was at Al again, while Grace fought valiantly.

She watched Al like a hawk, fearful that he would disappear once more. She knew if he did she would never be able to bring him back. The second breakdown would be much worse than the first.

On the day after his breakdown Al's old sense of apathy took possession of him; he told Grace he would have to quit the show. But at his declaration Grace took counter-action. She saw that what he needed now was not rest and escape. He should be forced for his own good to go on as if nothing had happened. She explained that to him.

"Al, you mustn't back down, you mustn't give an inch!" she cried with passionate conviction. "I know how you feel and I sympathize with you. Heaven knows I've suffered with you and for you! You must hold tightly to the will to live—if not for yourself, then for me. I love you!"

Al stared at her a long time without answering. Then he said quietly, "You're right, Grace."

Grace saw she had won the first battle, but she knew there would be other skirmishes. However, the first battle was the most important—and the hardest.

Al stayed on with the Marcus revue. Another song was substituted for "Little Feller," but otherwise his

BUCKLEY'S
MIXTURE

It's like a
Flash

A SINGLE SURE PROVE IT

routine was the same. And as the nights passed Grace's contention was proved. His grip on life grew stronger because he was surrounded by people who sympathized with him and because he had to work.

Strangely enough, Molly had disappeared in much the same way that Al himself had vanished following her elopement. As soon as the first shock of Junior's death had been softened in his mind, Al, at Grace's suggestion, tried to trace Molly. When they heard how John Perry had gone through hell money they were fearful that she might be in want. But Molly had left the city, leaving no trace of her whereabouts. Not until months later did Al learn that Molly had gone to the home of a relative in the middle west. She never came back to Broadway.

As Al's second recovery progressed, so his plans and Gace's moved closer to materialization. Then came the day when he and Grace, with a few of their closest friends, visited the Little Church around the corner and were married. Marcus, Blackie Joe, and Bill Cline, Al's former partner were in that small group of friends. When the ceremony was over, Marcus whispered to Al:

"Boy, you've picked the right girl this time."

Was Famous Detective

Passing Of Frank Frost, One Of The Most Famous Scotland Yard Sleuths

After many years of well-earned leisure, Frank Frost, one of the most famous old time Scotland Yard sleuths, died recently in London, England, aged 72, after an operation.

Frost's most dramatic adventures were when he was sent to Argentina to arrest Jacobo Balfour, an anarchist leader, on a mammoth scale, whose story belongs to nearly 40 years back. The detective found innumerable obstacles against him in getting Balfour out of Argentina.

Finally he got his man on a car attached to a locomotive which went at a breakneck speed to Buenos Aires, and despite the efforts to impede him, Frost got Balfour aboard a ship for England.

Persian Balm—the peerless aid to loveliness. Delightfully fragrant. Daunt to use. Leaves no stickiness. A little gentle rubbing and is swiftly absorbed by the tissues. Tonic in effect. Soothes and dispels roughness and chafing. Keeps skin soft and velvet-textured. Unvalued for charm, distinctness and refinement. Used by lovely women everywhere to preserve and enhance their natural beauty.

Snake Goes On Hunger Strike

Small Boa At National Museum, At Ottawa Is Subjected To Foul Feeding

With a rubber band around its throat to prevent it disgorging its meal, a small boa among the collections of snakes in the National Museum, at Ottawa, broke a three months fast recently.

When the snake became ill and torpid, Clyde Patch, reptile expert at the museum, became worried. He tried to force a mouse down the snake's gullet, but the reptile, resenting his forceful methods, disgorged the morsel. Mr. Patch tried again and quickly wound the rubber band around the snake's throat so that the meal stayed down, and the snake gained weight and energy.

Minard's for the Ideal Rubdown.

Speaking For Himself

"Call these prices what you will, they ain't nothing to what our folks rate. My father raised the biggest calf of any man around our parts."

"Don't doubt it," remarked a bystander, "and the no'siest."

Dragon flies possess eyes with as many as 30,000 facets, to furnish the intense vision required in capturing darning prey.

The Terror Of The Seas

Age Old Battle Of Mariners and the Elements

The storms which have been devastating the shipping around the northwestern fringes of Europe and the British Isles, are said to have been the most experienced in those waters in many years. How many seamen have been drowned, how many ships have struggled and died under their malevolent fury, is not yet ascertained. It may never be known.

"It's," as Conrad once wrote, "the disintegrating power of a great wind. . . . An earthquake, a landslide, an avalanche overtakes a man incidentally as he goes—without passion. A furious gale attacks him like a personal enemy, tries to grasp him, misleads, fastens upon his mind, seeks to rout his very spirit out of him."

That is the character of the desperate warfare which has been going on behind the brief news dispatches of ships in difficult seas and bodies washed ashore. It is a combat intermittent but recurring, as old as man-time civilizations which for so many centuries have launched their keels upon those troubled seas. The very names in the news stories—Elcay, the Scilly Isles, the Goodwin, Dungeness—are the names of ancient battlefields in the old war. They run back through all the literature of the sea; Nelson's navy fought the gales there, like King Henry VIII's and the Phoenicians who came to Cornwall for tin before history. Steel and steam are better defences than the Phoenicians had, or Nelson, but even steel and steam are not invincible. The war will go on, and so will one's admiration for the men who fight it. —New York Herald.

Hoan province reported the coldest weather since 1870. The Han River was filled with blocks of ice, destroying thousands of junks. Hundreds of persons were drowned.

CONSTITATED CHILDREN

Constipation is one of the most common ailments of childhood and the child suffering from it positively suffers from a general debility. The bowels must be kept regular and the stomach sweet. To do this you can equal Baby's Own Tablets. They are a mild but thorough laxative; are pleasant to take and can be given to the newborn babe with the greatest of safety. Thousands of mothers use no other mild cure for their babies but Baby's Own Tablets. They are sold by medicine dealers or by mail at 25 cents a box from The Williams' Medicine Co., Brockville, Ont.

Tribute For Newspaper Editor

One Of Greatest Newspaper Editors Of Great Britain To Be Honored By City Of Manchester

C. P. Scott, chief proprietor of the Manchester Guardian, and until his resignation a few months ago one of the greatest newspaper editors in Great Britain, will be honoured by the city of Manchester when the freedom of the city is conferred upon him shortly.

"C. P." resigned the editorship of the Guardian, which he had developed into one of the most influential organs in the country, in July of last year. The city of Manchester upon his resignation, Edward Taylor Scott.

On that occasion "C. P." received from His Majesty a telegram congratulating him upon his editorship of the Guardian for 57 years, an achievement which His Majesty remarked "was surely unique in the history of journalism."

Clearing House For Youths

Saskatchewan Government May Purchase Property Close To Regina For British Farm Boys

That the Saskatchewan Government is not contemplating training boys on a farm close to Regina. Hon. J. A. Merkle, provincial secretary and minister of railways, labor and industries, states.

On the other hand, he said, the government is considering a proposition to buy a home close to this city which would be used as a sort of clearing house or stopping place for British farm boys arriving in the province, thus relieving congestion at the University of Saskatchewan, Saskatoon.

Property situated about four miles north of the city is at present under consideration, although negotiations have not yet begun.

Dogs Have Good Judgment

Dogs have better judgment than humans at times. Ever notice a canine round about a grouse? His instinct knows. He may be dumb, but somehow cynics and pessimists are anathema to him. If a dog makes friends with you, you may be sure your disposition is of the right caliber. Even though he has fleas repel him for his perspicacity.

"Dear Lord," prayed the co-ed, "I don't ask anything for myself — just give mother a son-in-law."

It takes seven years to bring an orchid plant to maturity.

Minard's Wards Off Grippe.

Phillips' Milk of Magnesia

For Trouble Due to Acid Indigestion, Flatulency, Headache, Heartburn, Stomach Troubles, Bile, Nausea, etc.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude salts. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

Cold Wave In China

Reports States That Thousands Of Victims Have Perished From Intense Cold

Parts of China are being swept by the severest cold in sixty years, with untold suffering and considerable loss of life resulting. The famine areas particularly have been hard hit.

The vernacular press published despatches from Suiyuan district, in northern Shanai, estimating 15,000 aged, under-nourished adults and children were dead due to exposure. In the town of Fengchen, 2,500 were frozen to death. In Sansen, 2,000 died, and in Paochowmen 800 were killed by the cold.

Hoan province reported the coldest weather since 1870. The Han River was filled with blocks of ice, destroying thousands of junks. Hundreds of persons were drowned.

The Rego News Agency said 700 soldiers were frozen during the movement of the second army. Bodies were sent back to Hankow by freight trains where soldiers and relatives were summoned by beating of gongs to take care to the railroad yards and take charge of the bodies.

Peiping police reports said 187 men and 41 women had been found dead here since May, most of them frozen.

Passing Of The Sleigh Bells

The automobile and snow-cleared roads have combined to hush the sleigh bells that once made melody on the streets and highways. So rare is the sound of the chiming jingle that, when it is heard, attracts run to the window to look and recall the old days and children to gratify our curiosity with a strange sight.—St. Paul Pioneer Press.

Corns cause much suffering, but Holloway's Corn Remover offers a simple, sure, and satisfactory relief.

With the 200-inch telescope now under construction, astronomers expect to peer into spaces of the universe three times as far as those heretofore penetrated.

Alberta's Gas Tax

Despite rebates of \$250,000 within six months to users of gasoline for industrial purposes, Alberta's gas tax has produced a net revenue of \$1,750,000 between April 1st and November 20th, provincial officials state. At least \$500,000 more is expected to be taken by March 31st, 1930, the end of the fiscal year.

India has a population of 320,000,000, practicing nine great religions, speaking 130 different dialects, belonging to six distinct families of speech.

Needless Pain!

The man who wouldn't drive his motorcar half a mile when it's out of order, will often drive his brain all day with a head that's throbbing.

Such punishment isn't very good for one's nerves! It's unwise, and it's unnecessary. For a tablet or two of Aspirin will relieve a headache every time. So, remember this accepted antidote for pain, and spare yourself a lot of needless suffering. Read the proven directions, and you'll discover many valuable uses for these tablets. For headaches, to check colds. To ease a sore throat and reduce the infection. For relieving neuralgia, neuritis, rheumatic pain.

People used to wonder if Aspirin might be harmful. The doctors answered that question years ago.

Indigestion

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Little Helps For This Week

"The love of Christ constrains us."—2 Corinthians v. 14.

Blest be Thy love dear Lord, mine, if with us here, amid all the strife and rivalry that make up our "workaday world," the voice that bids us love is to be regnant over all other voices, somewhere or other there must be the spell that compels us to do so.

An apostle that found the spell when he wrote, "the love of Christ constraineth me," and other men than he, say, a multitude whom no man can number, have looked also into the face crowned with thorns, and have learned there how to love.—Henry C. Potter.

Always Ready and Reliable—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all man-women have bruised and strains. Keep a bottle handy always.

The Coleman Journal

Local News

A pathetic sight which caused a heartache to lovers of dumb animals was a foal standing beside the mutilated body of its mother on the railroad track in West Coleman. The mare had been killed by a passing train. If horses are of such little value to owners that they are permitted to stray, the quicker they are gathered up and destroyed the better it would be for the animals. A quick death is better than long drawn-out suffering in sub zero weather, despite what some may say about horses thriving on out door life in the winter.

Mrs. J. Asbridge, formerly of Coleman, is now living at Ledoux, Alberta, and has music classes at that place and also is teaching the senior and junior choirs in Wetaskiwin. It will be remembered that Mr. and Mrs. Asbridge moved from here to Corbin, then later to Mercoal, where Mr. Asbridge is on the office staff of the coal company there. During her residence here Mrs. Asbridge gave freely of her services in concerts and other functions, and her friends will be pleased to learn of her success.

THE SALVATION ARMY

Captain Clifford Fowler and Lt. Jacob Zoutendyk.

Sunday Services; 11 a. m. Holiness meeting, 7 p. m. Salvation meeting.

NOTES AND COMMENTS

(Continued from Page 4)

be appointed agents to take the orders for the coffins, at the time they issue permits to purchase the liquor.

The superintendent of Ponoka mental hospital issues a friendly suggestion concerning those who are susceptible to brain paralysis, as follows: "If a middle-aged man who has at one time contracted a social disease begins to show forgetfulness, neglect of business, lack of judgment, or any slight tendency toward mental derangement," said Dr. Cooke, "his relatives should insist upon an immediate examination and if symptoms of general paralysis are present, see that early treatment is given."

There will possibly be some heart-searching among those who even under ordinary conditions are forgetful in putting the cat out at nights or checking the furnace draughts. If you feel nervous about these lapses of memory, Dr. Cooke's advice is to "come early" and submit to an inoculation of "tryparsimide."

Suggestion has been made that the board of school trustees should have two lady members. Considering the fact that there are fifteen lady teachers on the schools staff, the suggestion has merit. Ladies may see some points in school administration which could be adopted with advantage, whereas a solid body of male trustees are liable to view things from a masculine viewpoint alone. Women are partners in many things besides the home, and therefore their views should be expressed through representatives of their own sex.

COPY OF ORDER OF NOTICE

Commonwealth of Massachusetts
Hampden County, ss: Jan 7th, 1930
SUPERIOR COURT
Nora Mitchell of West Springfield, in said county, Plaintiff

Northwestern Casualty & Surety Company, a corporation duly established by law and having a usual place of business in Springfield, in said county, and Silva Sciotte of Coleman, Province of Alberta, Canada Defendants.

This is a bill in equity to collect a judgment recovered by the petitioner against the respondent, Silva Sciotte, on or about the third day of December, 1929, the amount of said judgment being \$4622.50 damages and \$55.65 costs, making a total of \$4678.15. The purpose of this bill is to reach and apply on said judgment certain insurance money provided in a certain contract or policy of insurance issued by the respondent, Northwestern Casualty & Surety Company, to the respondent, Silva Sciotte, and that the said respondent insurance company be ordered to pay to your petitioner the amount of said judgment with interest thereon from the date said judgment was entered and also the costs of this action.

It appearing that the said defendant, Silva Sciotte, resides out of this Commonwealth, and no service of process has been made upon him within this Commonwealth, it is ordered that he appear in said Superior Court within two months from the first Monday of February, next and answer to said complaint, and that an attested copy of this order be served in said defendant, Silva Sciotte, personally, if possible, or published in The Journal, a public newspaper printed at Coleman, Alberta, Canada, three times in different weeks, within thirty days after the date of this order, the last publication to be four days at least before the first Monday of March, next.
